

## Orange Leap Capabilities

### About us

**Semper Technology, Inc. (STI)** is dedicated to helping you maximize your **Orange Leap** investment. STI is proud to be an Orange Leap partner in providing professional services and solutions to nonprofit organizations that have embraced this leading open source product line ([www.orangeleap.com](http://www.orangeleap.com)).

With over a decade of working with non-profit technology systems, combined with our broad range of business management and IT experience, you have a full-service partner to help your organization achieve its full potential.

Our goal is to help your organization get the most out of its valued operational funds by employing best practices, fully utilizing the standard Orange Leap features, adding custom functionality, and integration with other systems, like a Website or an accounting system.

Benefits include a faster, more efficient fund and friend-raising operation, with more accurate and timely information.

*Leap Ahead <sup>SM</sup> with our Orange Leap services and solutions*
